## Denise's Story...

When I started the Growing Hope Program, I was lost, confused, and didn't know which way to turn, much less have any hope in my life. After some serious health problems and my husband passing away, I really needed something. I found it!

I started with the Boundaries Course and then a Gardening Class which helped me look back at what could be fixed and forward to

what life could be. After these classes, I entered the financial course. This has helped me find how to deal with emergencies, pay bills, and survive. Throughout this course you are surrounded by love, encouragement, and the idea that you are not by yourself. Now you have support. We also have dinner together every Monday before the classes begin. Not only do they feed your stomach, but they also feed your soul.

These courses have given me back my self-confidence, self-esteem, a softer heart, compassion, and an urge to help others so that they are not alone. This program not only changes your finances, but it also changes your life.
